Welcome

Thank you for getting in touch. I hope we can give you what you're looking for.

At Sunshine Coast Videography, we are all about capturing your moments! We would love the opportunity to produce for you a high-quality video of your day, something that is candid and real.

We want that every time you sit down to watch your wedding video that all the feelings come back and you can relive one of the most significant days of your lives.

We know that being filmed is a foreign idea and a lot of people can be hesitant - but on the flip side, we also have had 100's of Brides and Grooms tell us it's one of the best decisions they made for there wedding.

I hope to get a chance to meet you both.

WHY PREMIUM:

It's all in the art!

Jayden spends more time planning & getting to know each couple resulting in a stunning cinematic record of your special day. "We get to know the couple & use whatever equipment is necessary to create the vision the couple is after".

Jayden represents years of experience in wedding videography, creating emotive and visually stunning films. With premium, we use a range of Hollywood style motion equipment to achieve the movie style shots everyone has come to love.

Watch a sample Short Film on our website to see what Premium is all about.
